my case was a hopeless one. A friend of
mine (Mrs. Elvira Redmond, of East Long

your Manalis. I must say I had but little
faith in the medicine, but after I had taken
few doses I was convinced that Manalis was the medicine for me. After I LIN was the medicine for me. After I had taken one bottle I was entirely well of my complaint. I recommend it to all who are afflicted with constipation or indigestion. Any one doubting this statement is invited to call on me at 24 Front street."

Mr. Milton Knotts, Urbana, O., writes:
"Last November one year ago I was taken sick, and called in our family physician. He examined me and said I had symptoms of typhoid fever. He gave me medicine for two weeks or more without any relief. I began to think that my days on earth were fast closing in. I saw at once that his medicine would not reach my disease. Just as I was about to conclude that I would have to die, my daughter brought me one of your pamphlets. I noticed a case whose symptoms to conclude that I would have to die, my daughter brought me one of your pamphlets. I noticed a case whose symptoms were like mine, and PERUMA and MANALIN had cured him. I concluded at once to try it. I procured one bottle of PERUMA and one of MANALIN, and took them as directed, and before I had used the two as directed, and before I had used the two bottles I began to receive strength and gain in flesh. I finished the rest of the two bottles and continued its use until the third bottle was used. When they were used I could eat anything I wanted to and go about my work. I consider that if it hadn't been for your Paruna I would have been in my grave. Parties wishing information can write me at the above place. I recommend your medicine wherever I go."

Mr. John R. Davis, Moundsville, W. Va., writes: "I have been handling your Paruna eyer since its introduction. All who have used it speak highly of its curative properties. I consider it a reliable remedy."

The drunkard, it must be remembered, gets drunk, as a rule, but occasionally. Save in the last stages of dipsomania he can do, if not without drink, yet without intoxicating quanti-tities of drink, for days together. The narcotist who attempts to go for a whole day without his accustomed dose suffers in 24 hours far more cruelly than the drunkard deprived of alcohol in as many days. The effect upon the stomach and other organs, upon the nerves as well as on the brain, is one of indescribable, unspeakable discomfort amounting to torture; a disorder of the digestive system more trying than sea sickness, a disorganization of the nerves which after some hours of unspeakable misery culminates in convulsive twitchings, in mental and physical distress, simply indescribable

Where attempts have been made for-cibly and suddenly to withhold the accustomed sedative they have not un-frequently ended within a few days in madness or death. In other cases the victim has sought and obtained relief by efforts and through hardships which, in his or her best days, would have seemed impossible or unendurable. One woman thus restrained escaped in deshabille from her bedroom on a wizter night of arctic severity; ran for miles through the snow, and was fortunate enough to find a chemist who knew something of the fearful effect of such privation, and had the sense and courage to give in adequate quantity the poison that had now become the tirst necessary of life. In a word, narcotics, one and all, are, to those who have fallen under their power, tyrants whose hold can hardly ever be shaker off, which punish rebellion with the rack, and with all those devices of torture which mediaval and ecclesiastical cruelty found even more terrible than the rack itself; while the most absolute submission is rewarded with sufpunishment of revolt. LOCAL NOTICES.

The greatest of these is charity. Mr. William B. Hart, of Leroy, N. She had long been afflicted with a complaint of the liver, which incopa-citated her from her usual occupation, which was that of a laundress.
